Reflexology: Is the study, art and science of using specific touch techniques on reflex maps, resembling the shape of the human body, that are believed to exist on the hands, feet and outer ears. It is most beneficial in reducing inflammation & increasing circulation, thus creating relaxation and promoting general wellness, both physically and mentally.

The addition of **Hypnotherapy** as a positive, intentional suggestion, can be very useful.

Membership Affiliations:

ORN *Oregon Reflexology Network*
RAC *Reflexology Association of CA*
RAA *Reflexology Association of America*

OBJECTIVE:

To promote physical & mental overall wellness, create relaxation, reduce inflammation and increase circulation with the modality of **Reflexology**, using **Hypnotherapy** when indicated.
